Gregory

Since 1977, Our founder, **Wayne Gregory**, was born with a simple passion to design backpacks he could trust on the most ambitious of life adventures. He did this by pioneering new suspension systems that work with your body instead of against it.

He paid **relentless attention to both the men's and women's fit** and invented new materials and construction techniques. Wayne's unique approach to design gave him the confidence to offer his **famous lifetime guarantee**, which we still honor to this very day.

Today, Wayne's obsession with innovation, performance, and comfort guided our evolution into a **world-leading bag company**, trusted for adventure in over 45 countries. We have been the **recipient of countless innovation and product awards**, but most importantly, our packs have been worn on millions of life adventures and have created **a million smiles along the way!**

In 2015, we designed and built a **new global headquarters office** a few miles south of Salt Lake City **at the base of the Wasatch Mountains**, giving our team amazing access to world-class hiking, biking, fishing, skiing, and snowboarding within a stone's throw of the office.

Day Packs - S20 New Products

Miwok and Maya

When you need extra space for the day and plan to take on difficult terrain, the Miwok and its flexible BioSync suspension keeps things in place. Arrange your valuables at the top, using a padded quick access pocket.

Available in different volumes : 12L, 18L, 24L, 32L and 42L

Citro and Juno

This bag has enough extra space to store your multiple layers, keep small items organized and still have room for overflow with a durable mesh storage pocket. Stay comfortable and cool with the VaporSpan ventilated back panel and perforated shoulder straps.

Available in different volumes : 24L, 30L and 36L

Nano

This bag is anything but boring, with a breathable back panel and an expandable exterior pocket. The different formats can handle a surprising amount of material regardless of your day's activities.

Available in different volumes : 16L, 18L and 20L

Travel Packs - S20 New Products

Tetrad

It has a D shaped ventral opening, which allows you to fill it like a suitcase. It comes with a transport bag that allows you to send it in cargo without having to remove the shoulder straps. The transport bag also serves as a Rain Cover and anti-theft system. The 60L and 70L formats have a day bag that comes off the front.

Available in different volumes : 40L, 60L and 70L

Hydration Packs - S20 New Products

Citro H2O and Juno H2O

It has a pocket on the back for the H2O bladder included with this version of the Citro. The bag comfort is extraordinary thanks to its trampoline type back called VaporSpan. This bag and its frame will follow you in all your daily adventures.

Available in different volumes : 24L, 30L and 36L

Ski and Snowboard Packs - S20 New Products

Targhee FT

Its Fast Track technology allows you to attach your skis without even having to remove the bag from your shoulders. It also has an easy access front pocket for your shovel, poles, and probe. To sum up it is light and effective.

Available in different volumes : 35L and 45L

Mountaineering Packs - S20 New Products

Alpinisto LT

It is a minimalist approach bag or a bag for climbers who take the direct route to the top. It has enough space for long days, with all the different configurations, all to match the task to be accomplished. The lightweight materials and durable aluminum hardware give you the confidence to move quickly in the Alpine area.

Available in different volumes : 28L and 38L
